

Spring Sensation Flowering Crab
Malus 'Spring Sensation'

Height: 10 feet

Spread: 10 feet

Sunlight: ○

Hardiness Zone: 4

Other Names: Rosebloom, Crabapple

Description:

This is truly a sensational ornamental tree perfect as a focal point; attributes include showy hot pink flowers, a dense, wide spreading habit, excellent disease resistance; fruit production is minimal, positively affecting maintenance

Ornamental Features

Spring Sensation Flowering Crab is covered in stunning clusters of fragrant shell pink flowers with rose centers along the branches in mid spring, which emerge from distinctive hot pink flower buds before the leaves. It has dark green foliage throughout the season. The pointy leaves turn yellow in fall. The fruit is not ornamentally significant.

Landscape Attributes

Spring Sensation Flowering Crab is a multi-stemmed deciduous shrub with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting birds to your yard. It has no significant negative characteristics.

Spring Sensation Flowering Crab is recommended for the following landscape applications;

- Accent
- General Garden Use

Planting & Growing

Spring Sensation Flowering Crab will grow to be about 10 feet tall at maturity, with a spread of 10 feet. It has a low canopy with a typical clearance of 2 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 50 years or more.

This shrub should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
